

METRONET Railcars Procurement and Maintenance

Industry Briefing

12/12/2018

Momentum West: A Joint Venture between CAF and UGL

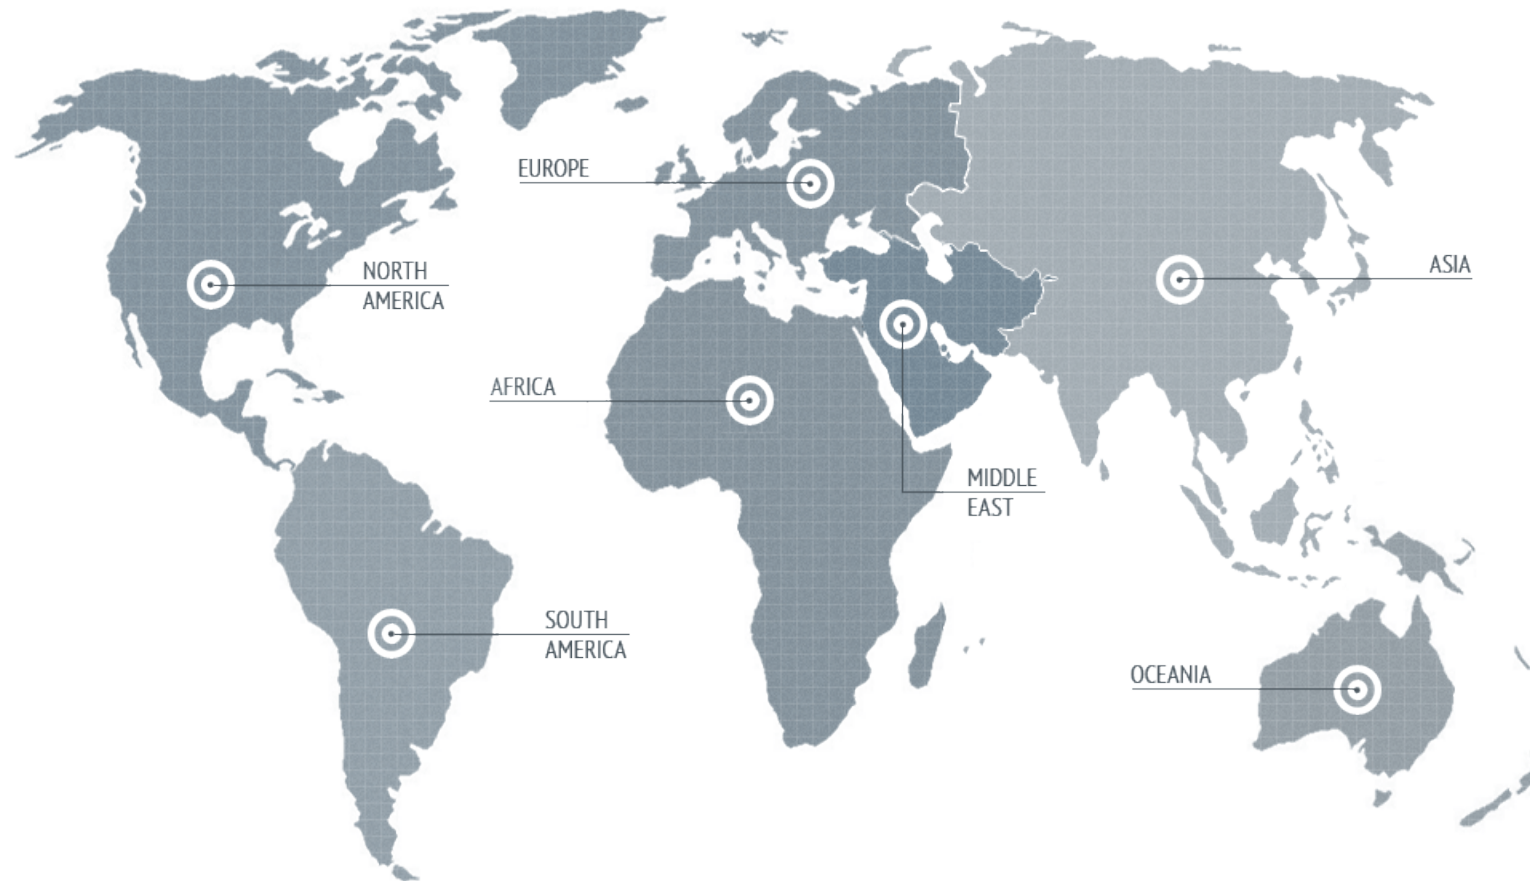

CAF

- Global leader in rolling stock design and manufacturing
- Proven and Flexible platforms, and a strong track record in project delivery within Australia and across the world
- Comprehensive understanding and portfolio of EMU and DMU technologies
- Successfully delivered thousands of trains worldwide
- Committed to the development of local industry

UGL

- Australian Company whose rail business started as A. Goninan & Co 100 years ago
- Railway engineering in WA since 1986 including rolling stock manufacture at Bassendean, an enduring WA presence committed to the development of local capability
- Extensive experience in delivering major projects for Government and private clients throughout Australia
- Innovators in Rail Asset Management

A Global Footprint

Australian footprint

Track record of High Local Content

- **CAF USA**

- 116 LRVs delivered, plus 52 on order
- 70% 70% local content (grown from 60%)
- 200 Jobs created

- **CAF Brazil**

- 43 Metro trains
- 181 EMU trains
- 60% Up to 60% local content
- 500 Jobs created for assembly
- 119 Jobs created for operation and maintenance

Current Australian experience

- **Railcar Supply**
 - Design and supply of **LRVs** in **Sydney, Newcastle and Canberra**
- **New Intercity Fleet NSW**
 - Facility Design & Asset Management of 512 railcars for Transport for NSW
- **Metro Trains Melbourne**
 - Maintenance of 1,296 railcars for Public Transport Victoria
- **Level 3 Maintenance**
 - Maintenance for 1,000+ railcars for Transport for NSW

Regional Rail fleet in NSW

- The NSW Government is replacing its ageing DMU fleet
- Transport for NSW are currently assessing shortlisted applicants to finance, build and maintain the new fleet including a new maintenance facility in Dubbo
- CAF and UGL are strongly allied to provide the rolling stock solution as members of the **Momentum Trains** consortium
- Momentum West continues this compelling partnership

Our objectives from today's session

- To meet new vendors as an introduction to understanding:
 - Approach to safety
 - Quality assurance systems and procedures
 - Product range and customers
 - Capability and capacity
 - The further value you can add to the WA economy
 - Any development requirements
